

## INTERCULTURAL MOVIE REPORT

Watch a movie in which the main characters are from a cultural group other than your own, or watch one that focuses on inter group contact. Write a typed, double-spaced two-page movie review. The review should briefly summarize the movie and then focus on the cultural communication themes of the movie. Use three citations from two different sources and a reference list.

Some questions to consider:

1. What ethnic groups are involved?
2. Is the movie insightful or stereotypical?
3. What new understandings did you gain as a result of viewing the movie through the communication perspective?

Do not simply review a movie, which you have seen previously. If you would like to review a movie, which you have already seen, please view it again before completing the assignment.
